

CogOps Schema — Comprehensive Release (Core v1.2, Commerce v0.2)

Pillars: Capital • Portfolio • Decisions. If it acts like capital, it **is** capital.

Core v1.2 Highlights

- Capital accounting (capex/opex/useful life/amortization/impairment) in CapitalImpact.
- Portfolio thresholds incl. RAROC, risk, OCU, latency, carbon. Role views, dashboards.
- Control-plane bindings & connectors; audit events; policies; compliance mappings.
- Scorecards and Playbooks for decision guidance.

Commerce v0.2 Highlights

- Accounts, products/SKUs, price books, offers, licenses, activations, usage events, invoices, payments.
- Meters: OCU, Seat, Transaction, MAU.
